# Skills for Every Student, Every Step of the Way

Social-emotional learning is a journey taken one step at a time. It's a process that helps kids develop vital life skills like building positive relationships, setting and meeting goals, and managing complex feelings—skills to help them thrive today and for many years to come.

A supportive environment is an essential part of this journey. Comprehensive, schoolwide social-emotional learning programs are designed to lead to a variety of positive outcomes for children and school communities, including enhanced student well-being, improved academic readiness, stronger student-teacher relationships, and a more positive school climate.

With the introduction of Second Step® High School, Committee for Children now offers a PreK-12 full-suite solution to schools and districts in communities around the globe. By choosing research-based Second Step® programs, you can empower all your students with skills for life, every step of the way.

## Now K-12: Second Step® Digital Programs

Within our full suite of programs, we're excited to offer districts digital-only programs ranging from Kindergarten through Grade 12. Our digital programs are all-online, are easy to implement at scale and monitor, and come with streamlined purchasing options and savings for districts.

# **Second Step® Early Learning**

This program is designed to teach young children how to build listening skills, manage their feelings and behavior, and get along with others. Easy-to-use classroom kits include:

- Engaging print materials like posters, themed cards, take-home activities, and a Teaching Materials Notebook
- Streaming media, sing-alongs, and high-quality puppets for full and lively lessons

Problem-Solving

# **Second Step® Middle School**

Our middle school program empowers students to strengthen social awareness, perspective-taking, and other vital skills that help them communicate, collaborate, and set and reach goals. The program includes:

- A full school year of weekly lessons for each grade level, nearly 200 advisory activities, and supplemental resources
- Relatable Real Voices videos and an optional bullying and harassment unit
- Thorough implementation support, program training, and leadership resources

Relationship Skills

Self-Management

## **Second Step® Elementary**

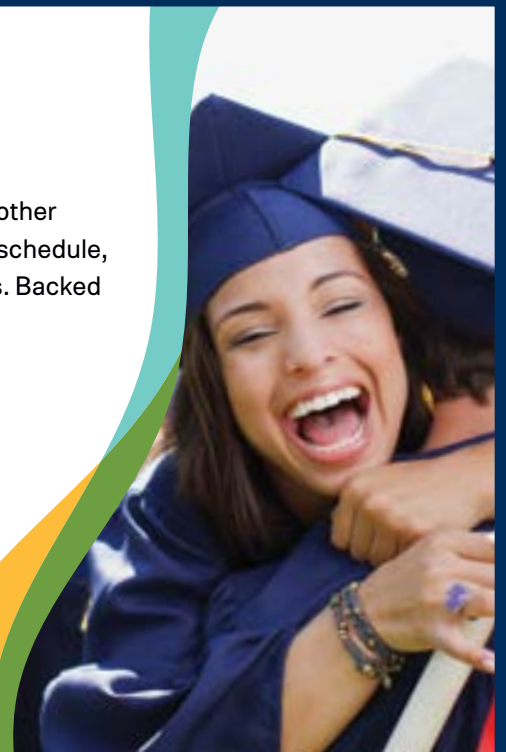

The elementary years are critical to developing foundational social-emotional skills like empathy, problem-solving, growth mindset, and more. Available in both digital and print-based formats, Second Step Elementary helps students grow skills they need to become lifelong learners. The digital program includes:

- Four units of weekly, age-appropriate lessons for Kindergarten through Grade 5 with downloadable handouts and an online dashboard
- Intuitive teaching tools, performance tasks to monitor growth, and more than 200 supplemental materials to expand learning
- Comprehensive implementation supports and teacher trainings to ensure alignment

## **Second Step® High School**

Create a culture where all students build confidence, resilience, and other competencies to thrive in the classroom and beyond. It flexes to any schedule, meets the needs of adolescents, and authentically engages students. Backed by the latest research, our all-new digital program includes:

- Four learning pathways: Belonging & Connection, Confidence & Capability, Agency & Opportunity, and Well-Being & Community
- Integrated practices for leaders and educators, activities for students, and a game plan so everyone's on the same page
- Implementation supports, smart scheduling tools, and progress reporting for sustained success

# The Second Step<sup>®</sup> Difference

As the leading provider of social-emotional learning curricula, we're committed to basing our programs on current research and best practices. Our team of experts follow a continuous learning model to ensure programs maintain the highest standard of quality so you can make a positive impact on students. Scan this QR code for access to a video library of resources that showcases the depth of our research and thought leadership.

## About Us

For more than 40 years, Committee for Children, the makers of Second Step programs, has been helping children learn, grow, and thrive. We believe if you make a positive impact on enough children through social-emotional learning, then those ripples will help a family, a school, a community, and ultimately, the world.
